

Timely Meds Patient Interest Form

Timely Meds is the new pre-dosed pill pack designed especially for you. Organized by day and time, it's a convenient reminder to take your meds – filled by a licensed pharmacist who knows your specific medication needs. Timely Meds is designed for customers that take five medications or more, or manage multiple medications for others.

Available in four, 7-day personalized packs. Each pack contains all your medications for each day, time of day, and every week for four weeks. Each pack will have a 60 day expiration date. There is no additional charge for Timely Meds, just the cost of your medications that you normally pay.

Upon enrollment you will receive a phone call from our pharmacy representative to review your current medications prior to filling your personalized pack. All medications will require a valid prescription from your doctor. You can also have your over the counter medications included in your Timely Meds. At times there may be some medications that we cannot package due to safety concerns. Every 28 days you will also receive a phone call from our pharmacy to review your medications and get any updates that have occurred since the previous fill. We cannot fill your Timely Meds personalized pack without your confirmation for each fill. This is important because once we've packaged your Timely Meds pack we are no longer able to make changes.

I understand that my insurance may pay for more than a 28-day supply but I am requesting that my prescriptions be filled in a 28-day supply.
